“ PUBLIC UTILITIES ACT ”

NOTICE is hereby given that by Order in Council No. 99, approved the 16th day of January, 1951, His Honour the Lieutenant-Governor in Council, under the provisions of the “Public Utilities Act,” has been pleased to approve Order No. 29 of the Milk Board, made pursuant to the provisions of the said Act, as follows:—

THE MILK BOARD

ORDER No. 29

In the Matter of the “Public Utilities Act,” and in the Matter of the Production, Supply, Distribution, Disposition, Use, Marketing, and Sale of Milk to or for the Public or Any Corporation for Compensation in the Greater Victoria Area, and Order No. 19 of the Milk Board.

VANCOUVER, B.C., January 12th, 1951.

Whereas the Milk Board, for reasons set forth in its decision of this date, deems it necessary to adjust the present schedule of rates to be charged for milk in the Greater Victoria Area:

Therefore, the Milk Board hereby orders that:—

1. The rate to be charged for milk on sales at retail to consumers shall be as follows:—

	Cents per Qt.	Cents per Pt.	Cents per ½ Pt.
Standard milk	21	11	7
Special milk	23	12	8

(2) Subsection (1) of this section does not apply to sales of milk at retail or wholesale in paper containers. The rate to be charged for milk and cream sold in paper containers shall be 2 cents a quart, 1 cent a pint, and 1 cent a half-pint higher than the rate set for the same product in

section 1 and subsection (1) of section 2 hereof.

3. The rate to be charged for bottled milk, ready for distribution, on sales by milk-dealers to milk-jobbers, shall be 66 cents a gallon for standard milk and 74 cents a gallon for special milk. Other milk products, including creams, shall be at a discount of 20 per cent on the rates set forth in section 1 hereof. The foregoing rates shall be net to the milk-dealer at his plant, and shall not include payment by the milk-dealer of any transportation costs whatsoever.

4. The rate to be paid to primary producers on all fluid milk supplied to a milk-dealer for sale as milk in fluid form shall be:—

- (a) \$5 a 100 pounds of milk testing 3.5 per cent butter-fat content f.o.b. milk-dealer's plant;
- (b) \$4.93 a 100 pounds of milk testing 3.5 per cent butter-fat content f.o.b. dock at Victoria;
- (c) A differential of 5½ cents a 100 pounds upward or downward for each one-tenth (1/10) of 1 per cent above or below 3.5 per cent shall be added or deducted to the rates set forth in (a) and (b) above.

5. This Order shall be effective in the Greater Victoria area, prescribed as follows: All that portion of Vancouver Island which lies to the south of the southerly boundary of the Esquimalt and Nanaimo Railway Company's land grant, together with Saanich Peninsula.

6. Order No. 19 is hereby rescinded, and this Order shall be in effect on and after the 18th day of January, 1951.

NOTICE

PRIVATE BILLS

NOTICE is hereby given that the time limited by the Standing Orders of the House for receiving petitions will expire on Thursday, the 1st day of March, 1951. Private Bills must be presented to the House on or before Monday, the 12th day of March, 1951. Reports from Standing or Select Committees on Private Bills must be received on or before Monday, the 19th day of March, 1951.

Dated the 5th day of January, 1951.

EDWIN K. DE BECK,
2927-ja11 *Clerk of the Legislative Assembly.*

PRIVATE BILLS

EXCERPT FROM STANDING ORDERS RELATING TO PRIVATE BILLS

100. (1) All applications to the Legislative Assembly for Private Bills of any nature whatsoever shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant.

(2) Such notice shall be published in The British Columbia Gazette and once a week in one leading daily newspaper freely circulating in all parts of the Province. The notice in such newspaper to appear on Wednesday of each week.

(3) When the proposed Bill is of such a nature that it may particularly affect one or more electoral districts, the notice shall furthermore be published once a week if possible in some newspaper in every electoral district affected, or if there be no newspaper published therein, then in a newspaper published in the electoral district nearest thereto.

(4) The publication of such notice shall in all cases be continued for a period of four weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

97. No petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no motion for the suspension or modification of this Standing Order shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with the consideration of Private Bills, who shall report thereon to the House. And if this rule shall be suspended or modified as aforesaid, the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the petition has been received after the time hereinbefore limited, shall in either case pay double the fees required in respect of such Bill by this rule, unless the House shall order to the contrary.

98. (1) Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session:—

- (a) A printed copy of such Bill;
- (b) A copy of the petition to be presented to the House;
- (c) Copies of the notices published, with publication proved by a statutory declaration or affidavit to the satisfaction of the Clerk of the House.

(2) At the time of depositing the Bill and petition the applicant shall also pay to the Clerk of the House the sum of three hundred dollars.

(3) If a copy of the Bill, petition, and notices proved as aforesaid shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session or if the petition has not been presented to the House within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees shall be returned.

101. Every petition signed by an agent or attorney in fact shall be accompanied by the authority of such agent or attorney in fact, and the petition shall not be deemed to be filed with the Clerk until this is done.

102. Before any petition praying for leave to bring in a Private Bill for the erection of a toll-bridge is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Standing Order 100, also at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

103. (1) All Private Bills for Acts of incorporation shall be so framed as to incorporate by reference to the clauses of the general Acts relating to the details to be provided for by such Bills: Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the general Act is proposed to be departed from. Bills which are not framed in accordance with this Standing Order shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

(2) Every Bill for an Act of incorporation, where a form of model Bill has been adopted, shall be drawn in accordance with the model Bill (copies of model Bills may be obtained from the Clerk of the House). Any provisions contained in any such Bill which are not in accord with the model Bill shall be inserted between brackets or underlined, and shall be so printed.

(3) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the notice of application for same.

107. All Private Bills shall be prepared by the parties applying for the same, and printed in small-pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¾ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

In the case of Bills to incorporate companies, in addition to the fee of \$300 mentioned in Rule 98, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

All cheques in payment of fees must be certified.

Dated January 5th, 1949.

E. K. DEBECK,
Clerk, Legislative Assembly.

DEPARTMENT OF HEALTH AND WELFARE

"HEALTH ACT"

PURSUANT to the provisions of section 6 of the "Health Act," being chapter 141 of the "Revised Statutes of British Columbia, 1948," His Honour the Lieutenant-Governor in Council has been pleased to approve the following Regulations for the Control of Communicable Diseases:—

REGULATIONS FOR THE CONTROL OF COMMUNICABLE DISEASES

FOREWORD

The continual addition to the knowledge in regard to the control of communicable diseases that has taken place in recent years necessitates the issuance of an entirely new set of communicable disease regulations for the Province of British Columbia. These regulations are made under the authority of the "Health Act," R.S.B.C. 1948, section 6, which follows:—

"The Lieutenant-Governor in Council may make and issue such general rules, orders and regulations as he deems necessary for the prevention, treatment, mitigation, and suppression of disease, and may from time to time alter or repeal any such rules, orders, and regulations and substitute new rules, orders, and regulations . . ."

These new communicable disease regulations are effective as from February 1st, 1951, and shall be enforced by every Local Board of Health throughout the Province of British Columbia as required by section 55 of the "Health Act," R.S.B.C. 1948, which follows:—

"It shall be the duty of the Local Boards to superintend and see to the execution of any regulations made under this Act, or to execute or aid in executing the same within their respective jurisdictions, and to do and provide all such acts, matters, and things as are necessary for superintending or aiding in the execution of such regulations, or for executing the same, as the case may require."

For clarity, and ease of reference, these regulations have been broken down into six major subdivisions. In Part I, which deals with definitions, an effort has been made to specifically state the meaning of certain terms so that there may be no misunderstanding when these terms are subsequently used.

Part II lists the diseases that become reportable from the date on which these regulations go into effect.

Part III gives the details of reporting. This Part not only covers the notification of reportable diseases by physicians to the Medical Health Officer, and by the latter to the Deputy Minister of Health, but also the notification of the occurrence of tuberculosis and venereal disease to the Divisions of Tuberculosis Control and Venereal Disease Control respectively. In addition, provision is made for notification to the Deputy Minister of Health in the case of any unusual outbreak of a communicable disease.

Part IV deals with the general control methods. Herein are outlined the various types of isolation, the use of quarantine and warning placards, duties of responsible persons, laboratory examinations, special regulations in certain cases, and such other measures as are in general applicable to all diseases.

Part V lists the approved methods for concurrent and terminal disinfection.

Part VI deals with specific control methods. Each disease is dealt with separately and at the present time only the more common communicable diseases have been included.

All previous communicable disease regulations issued by the Health Branch are no longer in effect, with the exception of regulations for the prevention of the spread of smallpox to and in British Columbia, approved by Order of the Honourable the Administrator in Council, dated March 19th, 1925 (Order in Council No. 296).

PART I DEFINITIONS

Throughout these regulations the following definitions shall apply:—

Bread-winner.—A "bread-winner" means a person who supports himself and those dependent upon him, by his earnings.

Carrier.—A "carrier" means a person who may be apparently healthy but who harbours the specific etiological agent of communicable disease and who may disseminate it through his discharges or by other means.

Cleaning.—"Cleaning" means the removal, by scrubbing and washing as with hot water, soap, and washing-soda, of organic matter on which and in which pathogenic micro-organisms may find favourable conditions for prolonging their life and virulence.

Communicable Disease.—"Communicable disease" means a disease which is directly or indirectly transmissible from an infected person or animal to some other person or animal. This therefore includes all diseases referred to in the "Health Act" as infectious or contagious.

Contact.—A "contact" means any person or animal known to have been sufficiently near an infected person or animal to have been presumably exposed to transfer of infected material, directly or indirectly, or by articles freshly soiled with such infected material.

(a) *Intimate Contact.*—"Intimate contact" means a contact who has been intimately associated with an infected person or animal in the immediate household or who has been subject to such close and prolonged exposure to an infected person or animal to be reasonably suspected of having acquired the infection.

(b) *Casual Contact.*—"Casual contact" means a contact other than an intimate contact who has been in contact with a person or animal infected with a communicable disease.

Contagion; Contagious Disease.—The terms "contagion" and "contagious disease" mean, for the purpose of these regulations, a "communicable disease."

Culture.—"Culture" means a growth of micro-organisms in or upon an artificial medium.

Delousing.—"Delousing" means the process by which a person and his personal apparel are treated so that neither adult lice and similar parasites, nor their eggs, survive.

Disinfection.—"Disinfection" means the destruction of pathogenic micro-organisms by chemical or physical means. (See Part V for approved methods.)

(a) *Concurrent disinfection* means the application of disinfection immediately after the discharge of infectious material from the body of an infected person, or immediately after the soiling of articles with such infectious discharges.

(b) *Terminal disinfection* means the process of rendering the clothing and immediate physical environment of the infected person free from the possibility of conveying the infection to others, at the death or removal of the patient, or at the time when the person is no longer a source of infection.

Disinfection.—"Disinfection" means any process, such as the use of dry or moist heat, gaseous agents, poisoned food, trapping, etc., by which insects and animals known to be capable of conveying or transmitting infection may be destroyed.

Epidemic.—"Epidemic" means the occurrence of a communicable disease in excess of the usual prevalence.

Etiological Agent.—"Etiological agent" means a living parasitic organism capable under favourable conditions of inciting disease in a person or animal.

Food-handler.—"Food-handler" means any person who, in the storage, manufacture, preparation, handling, sale, or serving of food, handles food in

such a manner that some portion of his clothing or body might come in contact with such food or with utensils used in connection therewith.

Fumigation.—"Fumigation" means a process by which the destruction of insects and animals is accomplished by the employment of gaseous agents.

Health Branch.—"Health Branch" means the Health Branch of the Provincial Department of Health and Welfare.

Immune.—"Immune" means that a person or animal under ordinary circumstances of exposure is not susceptible to infection with the etiological agent of a given communicable disease.

Incubation Period.—"Incubation period" means the interval of time elapsing between the entrance of the specific etiological agent into the body and the first manifestations of the signs and symptoms of the disease.

Infected Person.—"Infected person" means a carrier of, or a person ill with, a communicable disease.

Infection; Infectious Disease.—The terms "infection" and "infectious disease" mean, for the purpose of these regulations, a "communicable disease."

Isolation.—"Isolation" means the segregation of any infected person in such a place and under such conditions as will prevent the direct or indirect transference of the etiological agent to susceptible persons.

Non-immune.—(See "susceptible person").

Patient.—"Patient" means a person who is infected with a communicable disease, and the term applies during the time the person is subject to communicable disease control measures.

Physician.—"Physician" means a legally qualified medical practitioner.

Premises.—"Premises" means the area in which the patient, suspect, contact, or carrier is confined or isolated in order to prevent the transference of the infection to others.

Qualified Medical Practitioner.—"Qualified medical practitioner" means any person registered under the "Medical Act" to practise medicine and surgery in the Province of British Columbia.

Quarantine.—"Quarantine" means the limitation of freedom of movement of persons or animals who are known or reasonably suspected by the Medical Health Officer to have been exposed to a communicable disease.

Release.—"Release" means the restoration of personal liberty following a period of isolation or quarantine for a communicable disease.

Renovation.—"Renovation" means such procedures, in addition to cleaning of walls and floors of rooms or houses, as may be necessary to place the premises in satisfactory sanitary condition.

Sick-room.—"Sick-room" means the room or designated isolation area where the patient is confined throughout all or part of the illness for which isolation has been imposed.

Susceptible Person.—"Susceptible person" means a person who under ordinary conditions of exposure to a communicable disease reasonably may be expected to acquire that disease.

PART II

REPORTABLE DISEASES

The following diseases are declared to be reportable. They shall be reported to the Medical Health Officer and shall be subject to the general control measures provided in Part IV and such specific control measures in Part VI as are applicable. Where control measures are necessary for individual diseases not mentioned in Part VI, they shall be instituted by the Medical Health Officer, subject to the approval of the Deputy Minister.

PART III

REPORTING

Every physician, superintendent, and other responsible head of any hospital, institution, or place of detention, and every householder, teacher, or any other person knowing or suspecting the existence of a communicable disease, other than venereal disease, shall report this fact to the Medical Health Officer within twenty-four hours. This report shall be made in writing or by other suitable means of notification and shall include the name of the disease existing or suspected, together with such other information as the Medical Health Officer may require.

In addition to reporting tuberculosis to the Medical Health Officer, physicians shall also report tuberculosis directly to the Division of Tuberculosis Control of the Health Branch on a special form provided for this purpose.

In areas served by full-time health units and any areas adjacent thereto approved by the Deputy Minister of Health, other than Greater Vancouver and Greater Victoria areas, venereal disease shall be reported by physicians on the special form provided for this purpose to the director of the health unit who, in turn, shall report to the Division of Venereal Disease Control of the Health Branch. In all other areas of the Province, venereal disease shall be reported by physicians directly to the Division of Venereal Disease Control on the special form provided for this purpose.

Undertakers, when called upon to embalm, cremate, or bury the body of a person whose death certificate states that the primary or contributory cause of death was a communicable disease, shall report such facts within twelve hours to the Medical Health Officer.

Every Medical Health Officer shall keep a register of the following reportable diseases reported to him on a form provided by the Health Branch or on a form approved by the Deputy Minister of Health: Anthrax, botulism, brucellosis, cholera, diphtheria, dysentery, encephalitis (infectious), leprosy, meningitis (meningococcal), plague, poliomyelitis (acute), Rocky Mountain spotted fever, smallpox, salmonellosis, shigellosis, streptococcal infection, trichinosis, tularæmia, typhoid or paratyphoid fever, typhus or yellow fever.

The Medical Health Officers and the Deputy Minister of Health may, at their discretion, use and make public information contained in reports made to them concerning the prevalence of communicable disease in the area under their jurisdiction, unless otherwise prohibited from so doing.

Every Medical Health Officer shall forward weekly to the Deputy Minister of Health a report listing the reportable diseases that have occurred in the area under his jurisdiction during the past week, together with such other information as may be required by the Deputy Minister of Health. These reports shall be on a form provided by the Health Branch and shall be mailed by the Medical Health Officer on Saturday of each week. Even although no reportable disease has occurred locally, the form shall be mailed weekly to the Deputy Minister of Health. In remote areas of the Province where there is no regular mail service, special arrangements for the reporting shall be made by the Deputy Minister of Health.

When anthrax, cholera, diphtheria, encephalitis (infectious), leprosy, meningitis (meningococcal), plague, poliomyelitis (acute), Rocky Mountain spotted fever, smallpox, trichinosis, tularæmia, typhoid or paratyphoid fever, or any unusual outbreak or suspected occurrence of communicable disease takes place in any area of the Province, the Medical Health Officer shall notify the Deputy Minister of Health immediately by telephone or telegraph. When any of the above diseases continue to spread, the Medical Health Officer shall, in addition to his weekly report, continue to notify the Deputy Minister of Health of essential data at such intervals as are necessary to keep the latter currently informed of the situation.

Upon the receipt of a report of any communicable disease or diseases from any area of the Province, the Deputy Minister of Health may send one or more members of the technical staff of the Health Branch to investigate the outbreak and to give assistance to the Medical Health Officer in the control of same.

PART IV GENERAL CONTROL METHODS

Persons suffering from, or who are contacts of, or who are carriers of, a communicable disease shall be subject to control as specifically stated in Part VI, and by one or more procedures as follows:—

Section 1.—Isolation of Infected Person

Where isolation of the infected person is required, isolation shall be carried out by institution of one of the measures which follow. During convalescence, isolation by Method 1 or 2 may be changed to a modified isolation (Method 3A or Method 3B), at the discretion of the Medical Health Officer.

Method 1.—Isolation by the continuous separation of the infected person in a room used for no other purpose, from all persons except the physician and nurses or other person in attendance and such others as may be authorized by the Medical Health Officer.

Method 2.—Isolation in a hospital approved by the Medical Health Officer for the care of such infected person, when the treatment of the infected person requires such facilities as are available only in such a hospital.

Method 3 (Modified Isolation).—Where modified isolation is specified or permitted, it shall be carried out as follows:—

Method 3A.—Permits household privileges for the infected person but restricts his activities to the place of residence or the grounds containing the residence.

Method 3B.—Permits the infected person comparative freedom of movement under conditions acceptable to the Medical Health Officer and the Deputy Minister of Health.

Section 2.—Concurrent Disinfection

Concurrent disinfection shall be carried out where specified in Part VI and by the methods stated in Part V.

Section 3.—Terminal Disinfection

Terminal disinfection shall be carried out where specified in Part VI and by the methods stated in Part V.

Section 4.—Quarantine of Susceptible Contacts

Quarantine of susceptible contacts of communicable diseases consisting of limitations of liberty shall be for the period of time stated in Part VI of these regulations as for the specific disease concerned.

Except as otherwise stated in Part VI of these regulations, a bread-winner who is an intimate contact shall be granted liberty to pursue his occupation if he lives apart from other quarantined intimate contacts or if the patient in the home is isolated to the satisfaction of the Medical Health Officer.

Section 5.—Transfer of Patient to Hospital

Where the Medical Health Officer reports to the Deputy Minister of Health that any person suffering from any one of the communicable diseases has refused to abide by the instructions of the Medical Health Officer given under the "Health Act" or regulations passed thereunder, and that such person is conducting himself in a manner detrimental to the public health, and whose condition requires hospital care, the Deputy Minister of Health shall cause such report to be investigated and, if satisfied with the facts, may issue a written order authorizing the Medical Health Officer and any police officer to take the said person and to convey him to a hospital having facilities and accommodation for the care of patients suffering from communicable disease. Such person shall be retained or confined in hospital for such length of time as the Deputy Minister of Health may consider necessary for the treatment of such person.

Section 6.—Instructions for Care of Persons Suffering from Communicable Diseases

It shall be the duty of the Medical Health Officer to make available written instructions provided by the Health Branch or approved by the Deputy Minister of Health for the control of specific communicable diseases. These instructions shall be for the information and direction of those responsible for the care of persons ill with diphtheria, poliomyelitis, scarlet fever, smallpox, typhoid fever, or any other diseases specified at the discretion of the Deputy Minister of Health.

Section 7.—Placarding of Premises

Placarding of premises shall be carried out as required in Part VI of these regulations, using a placard provided by the Health Branch or approved by the Deputy Minister of Health. The quarantine placard shall read as follows:—

Persons in these premises are under

QUARANTINE

In compliance with regulations of the Province of British Columbia for the control of communicable disease.

Anyone removing this quarantine notice without authority is liable to a fine not exceeding one hundred dollars (\$100).

Medical Health Officer.

The placard shall be signed by the Medical Health Officer and posted at or near the entrances to the premises concerned.

Section 8.—Prohibition of Entrance or Exit

When a quarantine placard is posted on any premises, no person shall enter or leave such premises except with the consent of the Medical Health Officer.

Section 9.—Warning Notice

A warning notice may be used in instances specified in Part VI, and also may be used at the discretion of the Medical Health Officer in instances where co-operation by the individuals concerned appears to be lacking. Where required or permitted, the warning notice provided by the Health Branch or approved by the Deputy Minister of Health shall read as follows:—

WARNING

All persons are hereby warned of the presence of a communicable disease within.

Medical Health Officer.

Anyone removing this warning notice without authority is liable to a fine not exceeding one hundred dollars (\$100).

The notice shall be signed by the Medical Health Officer and posted at or near the entrances to the premises concerned.

Section 10.—Interference with Placards or Notices Prohibited

No person shall interfere with or obstruct any health official in the posting of any placard or notice in accordance with these regulations, in or on any place or premises, nor shall any person conceal, mutilate, or remove any such placard or notice except by direction of the Medical Health Officer. In the event of any placard or notice being concealed, mutilated, or removed, it shall be the duty of the occupant, owner, or person in charge of the premises whereon such placard or notice was posted immediately to notify the Medical Health Officer of such fact.

Section 11.—Duties of Responsible Persons

(a) *Attending Physician.*—It shall be the duty of the attending physician, immediately upon suspecting or diagnosing a communicable disease, to order such isolation of the patient and such disinfection of discharges as may be required by these regulations, and such other measures as are within his power to prevent the spread of the disease, and to report all pertinent facts immediately to the Medical Health Officer concerned.

(b) *Others.*—It shall be the duty of the person as ordered to comply with such instructions from the attending physician until otherwise instructed by the Medical Health Officer, and it shall be the duty of all persons to carry out the instructions of the Medical Health Officer.

Except in an emergency or unless authorized by the Medical Health Officer, no person other than a legally qualified medical practitioner shall treat a person having a communicable disease.

(c) *Medical Health Officer.*—The Medical Health Officer shall be responsible for investigation, follow-up, and control of all infected persons, and the contacts of communicable disease in the area under his supervision, regardless of the final disposal of an infected person or the utilization of Provincial or other diagnostic or treatment facilities.

When the Medical Health Officer is informed or has reason to believe that a communicable disease exists within the area over which he has jurisdiction, he shall, either in person or through his authorized representative, immediately examine the facts and shall institute all necessary procedures required by these regulations.

In the occurrence of outbreaks of the less common communicable diseases the Medical Health Officer, in consultation with the Deputy Minister of Health, shall use such general measures as are considered necessary, including any regulation outlined in Part IV.

Section 12.—Delegation of Duties by Medical Health Officer.

Where considered necessary or advisable, the Medical Health Officer may delegate duties to properly trained assistants, deputies, qualified medical practitioners, public health nurses, or other representatives for the carrying-out of the provisions of these regulations.

Section 13.—Establishment of Diagnosis

The Medical Health Officer may accept, or at his discretion may verify or change, a diagnosis of communicable diseases made by any medical practitioner. If, upon investigation of the person suspected of having communicable disease, the characteristic symptoms are not sufficiently developed to establish a diagnosis, the person shall be considered to be suffering from a communicable disease, and the Medical Health Officer shall keep the suspected person under his personal observation until the true nature of the disease is established. Reports of the occurrence of communicable disease made by persons other than a qualified medical practitioner shall be verified by the Medical Health Officer before control measures are instituted.

Section 14.—Change of Diagnosis

A suspected person shall be reported with a provisional diagnosis which may be changed by the physician in attendance notifying the Medical Health Officer. A provisional diagnosis shall automatically be considered as final seven days after receipt of the report, unless changed by the Medical Health Officer.

Section 15.—Laboratory Examination

The Medical Health Officer shall have power to examine physically and by question any person infected, or suspected of being infected, with any communicable disease. He may require, moreover, such a person to submit to the taking of specimens of his blood and any other body fluids, and to submit specimens of his sputum and other excreta for the purpose of examination, or to submit to X-ray examination, and for the purpose of such examination may require him to enter any public hospital.

All such specimens or X-ray films taken for the purpose of the diagnosis or control of communicable diseases shall be submitted to the appropriate division or divisions of the Health Branch, or to agencies or persons approved by the Deputy Minister for examination and report.

Where diarrhoea (infectious), diphtheria, dysentery, gonorrhoea, salmonellosis, syphilis, tuberculosis, typhoid fever, paratyphoid fever, and other diseases for which laboratory examination is of value in diagnosis are suspected, the attending physician or Medical Health Officer shall submit suitable and sufficient specimens to the Division of Laboratories of the Health Branch to aid in such diagnosis and control. The Division of Laboratories shall, on request of the Medical Health Officer, send to him copies of all positive, suspicious, or negative findings respecting patients, carriers, and suspects in his area.

Section 16.—Special Regulations

(a) *Handling of Food Forbidden under Certain Conditions.*—No person who is a recognized carrier of any communicable disease shall serve or handle, in any manner whatsoever, any food intended for sale or distribution to persons other than members of his immediate household.

No person who resides in a household in which there is a person suffering from cholera, diarrhoea (infectious), diphtheria, dysentery (amœbic or bacillary), poliomyelitis (acute), streptococcal in-

fections, hæmolytic, typhoid or paratyphoid fever shall serve or handle, in any manner whatsoever, any food intended for sale or distribution to persons other than members of his immediate household, unless the patient in the home is isolated to the satisfaction of the Medical Health Officer.

(b) *Destruction of Foods under Certain Conditions.*—When a person suffering from diarrhoea (infectious), diphtheria, dysentery (amœbic or bacillary), poliomyelitis (acute), salmonellosis, streptococcal infections, hæmolytic, typhoid or paratyphoid fever resides on any farm or dairy producing, processing, or handling milk, cream, butter, cheese, or other dairy products, the Medical Health Officer shall order the pasteurization or the destruction of any such foods which, in his opinion, may have been infected.

(c) *Sale of Foods Forbidden under Certain Conditions.*—No person shall sell, deliver, or remove from any farm or dairy any milk, cream, or dairy products while any person residing or employed at or on such farm or dairy is suffering from diphtheria, dysentery (amœbic or bacillary), poliomyelitis (acute), streptococcal infections, hæmolytic, typhoid or paratyphoid fever, except with the approval of the Medical Health Officer on the basis that suitable control measures have been instituted, including the following:—

- (i) That such milk or milk products are not brought into the house where such infected person exists:
- (ii) That all persons coming in contact with such milk or milk products sleep, eat, and work wholly outside such house, and that such persons do not come in contact in any way with the affected premises or persons quarantined therein:
- (iii) That these regulations for the control of communicable disease are complied with:
- (iv) That the facilities for the handling of milk at the dairy and creamery, including utensils and water-supply, be independent of such house; and
- (v) That such milk or milk products have been pasteurized under conditions approved by the Medical Health Officer.

Section 17.—Return of Milk-bottles Prohibited

No milk distributor or any other person shall collect or take bottles from premises placarded by a quarantine placard. In delivering milk to such premises the milk distributor shall pour the milk from the bottle into a sterilized and covered container provided by the householder and the empty milk-bottle retained by the distributor.

PART V

CONCURRENT AND TERMINAL DISINFECTION

Section 1.—Concurrent Disinfection

(a) *Miscellaneous.*—(i) Sputum and Discharges from the Nose and Throat: Sputum and discharges from the nose and throat shall be destroyed immediately. If paper handkerchiefs are utilized, they shall be discarded when used into a paper bag or other suitable container and burned. If cloths or linen are used for, or are soiled by, such discharges, they shall be burned, boiled for thirty minutes, or be soaked in a disinfectant solution of, or equivalent to, a 2½-per-cent solution of Cresol for at least half an hour before being washed and used again. (To make a 2½-per cent solution of Cresol, add one teaspoonful of Cresol to one pint of water.)

(ii) Sputum Cup-holders and Receivers for Mouth-washes, Gargles, or Dressings: After use, these shall be treated by boiling for at least fifteen minutes, or by immersion in a disinfectant solution of, or equivalent to, a 2½-per-cent solution of Cresol for at least half an hour.

(iii) Waste Food from the Sick-room: Waste solids or liquid food from the sick-room shall be burned, boiled, or otherwise satisfactorily disposed of immediately and completely.

(iv) Dishes: Dishes, including glasses, cutlery, and other eating-utensils, returned from the sick-room shall be immersed in boiling water for at least one minute, and then be washed in soap and water. If the dishes are washed in the sick-room, they shall be retained there and used only by the patient.

(v) Dressings: After use, the dressings shall be burned immediately or shall be soaked for at least half an hour in a disinfectant solution of, or equivalent to, a 2½-per-cent solution of Cresol.

(vi) Thermometers, rectal tubes, douche-nozzles, and other equipment shall not be removed from the sick-room until the termination of the disease. After use, they shall be washed with a disinfectant solution of, or equivalent to, a 2½-per-cent solution of Cresol, followed by soap and water.

(b) *Soiled Bed and Body Linens.*—Soiled linen shall be soaked in soap and water. It shall then be washed as soon as possible, and dried in the open air. Other articles of clothing or bedding that are not usually subjected to laundering shall be aired for twenty-four hours before being cleaned by such other methods as may be required.

(c) *Soiled Bed and Body Linens.*—Soiled linen shall be thoroughly soaked for at least half an hour in a disinfectant solution of, or equivalent to, a 2½-per-cent solution of Cresol, then washed and dried in the open air. Other articles of clothing or bedding that are not usually subjected to laundering shall be aired for twenty-four hours before being cleaned by such other methods as may be required.

(d) *Fæces and Urine.*—All fæces and urine shall be intimately mixed with a disinfectant solution of, or equivalent to, a 2½-per-cent solution of Cresol before disposal. In addition, if disposal is in a privy, these body wastes shall be covered immediately with a layer of ashes or earth. Utensils used for the collection of fæces and urine shall be cleaned with a solution of 2½ per cent Cresol and then immersed in a similar solution for at least half an hour, and shall then be washed and dried where disinfection by heat, steam, or boiling water is not possible.

Section 2.—Terminal Disinfection

All articles used by the patient during isolation shall be properly treated when the patient is released from isolation by a thorough cleaning and airing or by sterilization by steam or boiling water, or as required by the Medical Health Officer.

Sick-room.—Thorough cleaning and airing of the sick-room shall be carried out, using soap and hot water wherever washing is indicated.

Blankets, Mattresses, and Clothing.—Blankets, mattress, and articles of clothing used by the patient, and not usually laundered, shall be aired outside for at least twenty-four hours and preferably in direct sunlight.

Books.—Books used by the patient shall be opened, stood on end for three days, and kept out of circulation for one week.

Papers and Other Articles.—Papers and articles of little value shall be burned.

PART VI

SPECIFIC CONTROL METHODS

Section 1.—Chicken-pox

Isolation: Yes; as specified in Part IV, Section 1, Method 2 or 3A. Isolation period shall be ten days from the first appearance of vesicles (rash).

Concurrent disinfection: None.

Terminal disinfection: None.

Quarantine: None.

Quarantine placard: No.

Warning notice: No.

Section 2.—Diphtheria

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2. Isolation period shall be at least fourteen days from onset of the disease and until

three successive cultures from the nose and throat, taken not less than twenty-four hours apart, and in the absence of a recently generally applied chemotherapeutic or antibiotic agent or locally to these surfaces, have failed to demonstrate the presence of diphtheria bacilli. In isolated areas beyond the reach of laboratory services where release by culture is impractical, patients may be released three weeks after the onset of the disease if clinically recovered and at the discretion of the Medical Health Officer. Isolation may be terminated if diphtheria-like bacilli, although persistently present, are reported to be avirulent.

Concurrent disinfection: Yes. For approved methods *see* Part V, Section 1, Subsections (a) and (c).

Terminal disinfection: Yes. For approved methods *see* Part V, Section 2.

Quarantine: Yes.

Quarantine period:—

(a) For household contacts: During the period of isolation of the patient. Bread-winners shall be quarantined for at least five days from date of last exposure and until they are shown not to be carriers by two negative nose and throat cultures taken not less than twenty-four hours apart and in the absence of a recently generally applied chemotherapeutic or antibiotic agent or locally to those surfaces. They may then be granted their liberty to pursue their occupations if they live apart from the quarantined family, or if the patient is isolated to the satisfaction of the Medical Health Officer.

(b) For susceptible contacts outside premises, including adults: For a period of five days from date of last exposure and until shown not to be carriers by two negative nose and throat cultures taken not less than twenty-four hours apart.

(c) For food-handlers: For at least five days from date of last exposure and until shown not to be carriers by two negative nose and throat cultures taken not less than twenty-four hours apart.

(d) For carriers: Until they have been demonstrated to be free of diphtheria bacilli by three negative nose and throat cultures taken not less than twenty-four hours apart and in the absence of a recently generally applied chemotherapeutic or antibiotic agent or locally to those surfaces. If this period is longer than six weeks, then a report should be made to the Deputy Minister of Health for further instructions. Quarantine will be unnecessary if diphtheria-like bacilli, although persistently present, are reported as avirulent.

Quarantine placard: Yes; during period of isolation of the patient.

Section 3.—Measles

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2. Isolation period shall be from the onset of the catarrhal symptoms (usually about four days before the appearance of the rash) until five days after the appearance of the rash.

Concurrent disinfection: Yes. For approved methods *see* Part V, Section 1, Subsections (a) and (b).

Terminal disinfection: None.

Quarantine: Only for susceptible school or pre-school household contacts to first patients in community.

Quarantine period: Exclusion of exposed susceptible children and teachers from school for fourteen days after exposure to first cases in community.

Quarantine placard: No.

Warning notice: At discretion of Medical Health Officer. (*See* Part IV, Section 9.)

Section 4.—Meningitis (*Meningococcal*)

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2. Isolation period shall be until recovery from acute illness.

Concurrent disinfection: Yes. For approved methods *see* Part V, Section 1, Subsections (a) and (b).

Terminal disinfection: Yes. For approved methods *see* Part V, Section 2.

Quarantine: None.

Quarantine placard: No.

Warning notice: At discretion of Medical Health Officer. (*See* Part IV, Section 9.)

Section 5.—Mumps

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2. Isolation period shall be until all swelling has disappeared from the affected glands.

Concurrent disinfection: None.

Terminal disinfection: None.

Quarantine: None.

Quarantine placard: No.

Warning notice: At discretion of Medical Health Officer. (*See* Part IV, Section 9.)

Section 6.—Paratyphoid Fever A and B

The same regulations shall apply as for typhoid fever. (*See* Part VI, Section 15.)

Section 7.—Pertussis (*Whooping-cough*)

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2. Isolation period shall be until three weeks after onset of typical paroxysms.

Concurrent disinfection: Yes. For approved methods *see* Part V, Section 1, Subsections (a) and (b).

Terminal disinfection: Yes. For approved methods *see* Part V, Section 2.

Quarantine: Yes.

Quarantine period: Infants, pre-school and school children shall be quarantined for fourteen days after last exposure.

Quarantine placard: No.

Warning notice: At discretion of Medical Health Officer. (*See* Part IV, Section 9.)

Section 8.—Poliomyelitis (*Acute*)

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2.

Isolation shall be in a properly screened mosquito-proof room.

Isolation period shall be until one week from date of onset or for duration of fever if longer.

Concurrent disinfection: Yes. For approved methods *see* Part V, Section 1, Subsections (a), (b), and (d).

Terminal disinfection: Yes. For approved methods *see* Part V, Section 2.

Quarantine: Yes.

Quarantine period: Children in the household and adults of the household whose vocation brings them into contact with children, or with food to be eaten uncooked, shall be quarantined for fourteen days from date of last exposure.

Quarantine placard: No.

Warning notice: At discretion of Medical Health Officer. (*See* Part IV, Section 9.)

Section 9.—Rubella (*German Measles*)

Isolation: None.

Concurrent disinfection: None.

Terminal disinfection: None.

Quarantine: Only for susceptible school or pre-school household contacts to first patients in community.

Quarantine period: From the fourteenth day following first exposure to the twenty-first day following last exposure.

Quarantine placard: No.

Warning notice: At discretion of Medical Health Officer. (*See* Part IV, Section 9.)

Section 10.—Salmonellosis (Other than Typhoid)

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2, then 3A or 3B. Isolation period shall consist of exclusion of infected persons from food-handling and occupations involving care of small children until clinical recovery.

Concurrent disinfection: Yes. For approved methods see Part V, Section 1, Subsections (a) and (c).

Terminal disinfection: Yes. For approved methods see Part V, Section 2.

Quarantine: Yes.

Quarantine period: Household intimate contacts shall not be employed as food-handlers until proven negative by three consecutive negative stool specimens twenty-four hours apart.

Section 11.—Streptococcal Infections (Scarlet Fever, Septic Sore Throat)

Isolation shall be until clinical recovery or not less than seven days.

Concurrent disinfection: Yes. For approved methods see Part V, Section 1, Subsections (a) and (b).

Terminal disinfection: Yes. For approved methods see Part V, Section 2.

Quarantine: Yes.

Quarantine period: For seven days from date of last exposure, unless contact is under adequate prophylactic chemotherapeutic or antibiotic treatment.

Quarantine placard: Yes; during the period of isolation of the patient on the premises.

Section 12.—Shigellosis

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2, then 3A or 3B. Isolation period shall consist of exclusion of infected persons from food-handling and occupations involving care of small children until clinical recovery.

Concurrent disinfection: Yes. For approved methods see Part V, Section 1, Subsections (a) and (c).

Terminal disinfection: Yes. For approved methods see Part V, Section 2.

Quarantine: Yes.

Quarantine period: Household intimate contacts shall not be employed as food-handlers until proven negative by three consecutive negative stool specimens twenty-four hours apart.

Section 13.—Smallpox

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2. Isolation period shall be at least twenty-one days from the onset of the disease and until the disappearance of the crusts.

Concurrent disinfection: Yes. For approved methods see Part V, Section 1, Subsections (a) and (c).

Terminal disinfection: Yes. For approved methods see Part V, Section 2.

Quarantine: Yes; for all susceptible contacts, including those contacts who have not been successfully revaccinated within the last three years. This applies to any group of children or persons who may have been exposed to smallpox. Quarantine period shall be sixteen days from the last day of exposure for all those who have not been successfully vaccinated or who cannot show satisfactory evidence of having had the disease. Those who are vaccinated within three days from date of first exposure may be released from quarantine when the height of reaction is passed and there is no clinical evidence of smallpox.

Quarantine placard: Yes; during the period of isolation of the patient on the premises.

Section 14.—Tuberculosis (Pulmonary)

Isolation: Yes; as specified in Part IV, Section 1, Method 2 or 3B. Where any person suffering from pulmonary tuberculosis in a communicable state is conducting himself in a manner detrimental to the public health and is refusing hospital treatment, a report giving complete details shall be forwarded by the Medical Health Officer to the

Deputy Minister of Health. The Deputy Minister of Health shall cause such report to be investigated, and, if satisfied with the facts, may issue a written order authorizing the Medical Health Officer and any police officer to take the said person and to convey him to a Provincial tuberculosis institution operated by the Health Branch, to a general hospital, or to any other hospital having facilities and accommodation for the care of tuberculosis patients. The superintendent of the Provincial tuberculosis institution, or any hospital designated in the order, shall accept, retain, and care for the patient until such time as the Deputy Minister of Health is satisfied that satisfactory arrangements can be made for the care of the patient in his home or other suitable place, or until the patient becomes non-communicable and is not dangerous to the public health.

Isolation period: No person afflicted with pulmonary tuberculosis in a communicable state shall be released from isolation until that person, in the opinion of the Medical Health Officer, no longer presents a hazard to the public health.

No person in a Provincial tuberculosis institution or any other hospital, and afflicted with pulmonary tuberculosis in a communicable state, shall leave such institution without the written permission of the medical supervisor or medical superintendent; however, if such an individual leaves a Provincial tuberculosis institution or any other hospital without such written permission, he shall be isolated upon his premises, or in any other suitable place by the Medical Health Officer.

If for treatment, or any other reason, it is desired to transfer a patient from one of the Provincial tuberculosis institutions to another, this can be done only on the written order of the Director of the Division of Tuberculosis Control of the Health Branch or the Deputy Minister of Health.

Concurrent disinfection: Yes. For approved methods see Part V, Section 1, Subsections (a) and (b).

Terminal disinfection: Yes. For approved methods see Part V, Section 2.

Quarantine: None. All contacts shall be X-rayed and, if necessary, further examined. (See general regulations, Part IV, Section 15.)

Quarantine placard: No.

Warning notice: At the discretion of the Medical Health Officer. (See Part IV, Section 9.)

Section 15.—Typhoid Fever

Isolation: Yes; as specified in Part IV, Section 1, Method 1 or 2, followed by Methods 3A and 3B. Isolation shall be in a fly-proof room.

Isolation period: Method 1 or 2 shall be used until the patient is afebrile, then Method 3A until clinical recovery. Method 3B shall then be used until the patient is released under the regulations for typhoid carriers (Part VI, Section 16).

Concurrent disinfection: Yes. For approved methods see Part V, Section 1, Subsections (a), (c) and (d).

Terminal disinfection: Yes. For approved methods see Part V, Section 2.

Quarantine: None. However, all intimate household contacts shall be isolated under Method 3B of Part IV, Section 1, until three successive negative cultures of urine and faeces, obtained from each of the contacts five days apart, have been proved negative. Such laboratory specimens from intimate household contacts shall not be required where there is reasonable evidence indicating other sources of the outbreak outside the immediate family. Food-handler contacts shall not be employed as food-handlers during period of contact nor before repeated negative faeces or urine cultures are obtained.

Quarantine placard: No.

Warning notice: At the discretion of Medical Health Officer. (See Part IV, Section 9.)

Section 16.—Typhoid Carriers

These regulations dealing with typhoid carriers affect convalescent typhoid carriers, chronic typhoid carriers, and suspected typhoid carriers.

A convalescent carrier shall mean any person from whom positive cultures have been obtained from specimens of urine and faeces during the twelve-month period immediately following illness from typhoid fever.

A chronic typhoid carrier shall mean any person who continues to excrete typhoid bacilli for longer than one year following illness from typhoid fever infection.

A suspected typhoid carrier—whenever in an epidemiological investigation of a patient suffering from typhoid fever any person is suspected of being the possible source of an outbreak, he shall be considered as a suspected typhoid carrier, and shall be dealt with under these regulations for typhoid carriers, until proved otherwise. Any such person who is proved to be excreting typhoid bacilli should be considered a chronic typhoid carrier.

Isolation: Yes; as specified in Part IV, Section 1, Method 3B. The special conditions mentioned in Part IV, Section 1, shall be as follows:—

- (1) No typhoid carrier shall prepare or handle any food or drink except for his own individual consumption or those members of his immediate household who have been immunized against typhoid fever to the satisfaction of the Medical Health Officer.
- (2) A typhoid carrier shall inform any person now living in his household or who may become a member of his household in the future that he is a typhoid carrier.
- (3) No typhoid carrier shall prepare or handle in any manner food or drink intended for sale or distribution to the public.
- (4) Urine and faeces of a typhoid carrier shall be disposed of in such manner as not to endanger any public or private water-supply and shall not be accessible to flies.
- (5) No typhoid carrier shall conduct or be employed in any hotel, boarding-house, restaurant, or other place where food or drink is consumed or sold.
- (6) No typhoid carrier shall engage in the occupation of nurse, cook, cook's helper, housemaid, waiter, or any occupation involving the handling of food, milk or milk products, or utensils used in the production thereof.
- (7) No typhoid carrier shall reside on any premises from which milk or cream is sold, shipped for sale, to any dairy, creamery, butter or cheese factory, or milk processing plant unless the Medical Health Officer procures from the carrier a written guarantee, endorsed by the producer or shipper, undertaking not to engage in the care of cattle, the handling of utensils, or any other operation concerned with the production and preparation of milk and milk products.
- (8) No typhoid carrier shall change his place of residence without giving due notice of such proposed change to the Medical Health Officer who shall give notice of such change to, and receive permission from, the Medical Health Officer of the district in which the carrier proposes to reside. Notice of such change shall also be made immediately by the Medical Health Officer to the Deputy Minister of Health.
- (9) A typhoid carrier shall wash his hands thoroughly with soap and water after each visit to the toilet.
- (10) Carriers who appear to be careless in the matter of personal hygiene may be isolated as under Part IV, Section 1, Method 3A, or by such other method as the Medical Health Officer may deem advisable in the interest of the public health.

Isolation period shall be until the Medical Health Officer and the Deputy Minister of Health are satisfied that such person is no longer dangerous to the public health.

During the twelve months immediately following the onset of illness from typhoid fever, one specimen of urine and one specimen of faeces from the patient shall be submitted at monthly intervals to the Division of Laboratories of the Provincial Health Branch for examination and report. If at any time during this twelve-month period three consecutive monthly cultures of urine and faeces are found to be negative, the patient shall be released and Method 3B terminated.

If, however, during this one-year period the cultures continue positive, then the patient shall be considered a chronic carrier, and Method 3B shall be continued until the patient is released from the register of typhoid carriers.

A chronic typhoid carrier can only be removed from the register of typhoid carriers when the Deputy Minister has satisfied himself that the gall-bladder has been removed, and, following which, twelve consecutive monthly specimens of stools, followed by one bile specimen, have all been examined by the Division of Laboratories of the Health Branch and found negative for typhoid bacilli.

For the purpose of termination of a chronic typhoid-carrier state, a recommendation may be made for the removal of the gall-bladder, provided the circumstances are suitable, and the age and operative risks warrant this procedure, and that infection of the gall-bladder has been proven, by examination by the Division of Laboratories of the Health Branch of bile from the chronic typhoid carrier.

When these conditions for the release of the carrier have been met to the satisfaction of the Deputy Minister, he shall, through the Medical Health Officer, inform the carrier concerned of the facts, in writing, that his name has been removed from the register and that he is no longer considered to be a typhoid carrier.

Urinary typhoid carriers shall be required to submit twelve consecutive monthly specimens of urine for examination by the Division of Laboratories of the Health Branch, and, if these are negative, the carrier may be released as provided above.

Duties of Medical Health Officer.—Upon receipt of information by the Medical Health Officer of the existence of a typhoid carrier residing in the area under his jurisdiction, he shall immediately take the necessary control measures as required by these regulations, and shall explain personally to the carrier the sections of the regulations which apply, and shall have the carrier sign a statement in duplicate on the form provided by the Health Branch to the effect that he has read or understands the regulations governing his actions as a typhoid carrier. The Medical Health Officer shall retain one signed copy and leave the other copy with the typhoid carrier.

The Medical Health Officer or his authorized representative shall visit each typhoid carrier in the area under his jurisdiction at periodic intervals, not less than six months apart, for the purpose of assuring himself that the carrier is living up to the instructions given him and is disposing of his body wastes in a satisfactory manner. The Medical Health Officer upon determination that a person is a typhoid carrier shall immediately report the fact to the Deputy Minister of Health, giving full name, age, sex, occupation, and address of the carrier, together with any other information relative to the possible, or probable, infection of others. The Medical Health Officer shall maintain a list of all known convalescent and chronic typhoid carriers in the area under his jurisdiction on the form provided by the Health Branch. The Deputy Minister of Health shall keep a register of all known convalescent and chronic typhoid carriers in the Province of British Columbia reported to him.
